Art Unit: 2876

1. The amendment filed June 21, 2001 has been entered as paper number 5. By this paper, claims 31-39 have been amended.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 35 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by Hirokawa 4,762,182. As seen in the previous rejection, Hirokawa discloses a storage card, a housing having a panel with an opening, a card support, a card handler and a data head. There is a moving means that causes the data head to move along parallel tracks along the storage medium.

Hirokawa also discloses a method of reading/writing data to/from a plurality of parallel tracks on a substrate.

4. Claims 31-34 are allowed.

5. Claims 36,37,39,40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter: as pointed out in the applicant's response filed June 21, 2001, the prior art of record fails to teach or fairly suggest rotating the card support in a path perpendicular to the path in which the card is placed in the housing, scanning the card in a perpendicular path, or scanning the card in curved

Art Unit: 2876

paths as specifically recited and along with all the other limitations of the claims as defined by the specification.

REMARKS

7. Applicant's arguments filed June 21, 2001, regarding claim 35 and 38 have been fully considered but they are not persuasive. Applicant argues that the prior art of record fails to teach or fairly suggest the "perpendicular" feature as claimed. However, this feature is not seen within claims 35 and 38.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
